MPU5 Radio

Tactical Networking Device

Intelligent RoIP Tethering

- Integrated Radio Over IP (RoIP) functionality.
- Bring your LMR radio onto the network.
- Communicate across separate organisations seamlessly.

The World's First Smart Radio

- Onboard Android™ OS The MPU5 is your computer.
- Install existing Android™ apps.
- Run custom apps natively.
- Connect & use USB devices.

Stay Connected Anywhere

- Powered by Wave Relay® MANET.
- Designed for mass scalability unlimited hops.
- Rapid self-forming & self-healing.
- True peer-to-peer no master node.

Carry Less. Do More.

- Network, voice, video, computer All in one device.
- Eliminate extra batteries, radios, encoders, receivers & more.
- More room for mission critical equipment.

Wave Relay® MANET

The Wave Relay® mobile ad hoc network (MANET) provides solid and reliable wireless connectivity for deployed soldiers and vehicles. Wave Relay® is the core focus of Persistent Systems and is unmatched by any other MANET.

Far surpassing typical mesh networks, Wave Relay® quickly adapts to fluctuations in terrain and environmental conditions, rapidly rerouting data and continuously working to maximise connectivity and performance.

Wave Relay's[®] unlimited hopping without any master nodes extends the network beyond the edge.

MIMO Technology

MPU5 uses Multiple Input, Multiple Output (**MIMO**) technology to deliver extremely high bandwidth and extended link distances. With up to 100 Mbps of actual user throughput, transferring high resolution imagery and HD video allows for real-time information exchange and comprehensive situational awareness.

MIMO's reliability, versatility and high bandwidth makes it ideal for blasting out necessary real-time information, such as GPS locations, maps, reconnaissance video streams, and voice messages in complex urban, subterranean, and maritime environments.

Interchangeable Frequency Module

- State-of-the-Art MIMO technology.
- High reliability in complex environments.
- Cost efficient and future-proof.

Stream HD Video

- Fully integrated H.264 HD video encoding/decoding.
- Connect video cameras directly to the unit.
- View multiple video streams simultaneously.
- HD output enabling connection to HDMI-compatible displays.
- Stream video and voice simultaneously.

Reliable Voice Communications

- Monitor up to 16 channels of voice.
- Dual active PTT Key 2 channels at once.
- Channel prioritisation & configurable talk groups.
- Voice activated full duplex communication.

Specifications

Data Rate	Up to 150 Mbps	External	PPT/EUD port:
		Connectors	Dual active PTT channels
		(I/O)	End user device (EUD) data/charging
Waveform	Advanced Wave Relay® multicast algorithms		USB host/RS-232 serial
	Seamless layer 2 network connectivity		HD video output
	Integrated serial-to-ethernet capability		Charging downstream port (CDP): Rated for 1,500mA
	Cloud Relay [™]		Charging downstream port (CDP). Rated for 1,500mA
	IPv4 and IPv6 compatible		
	Integrated DHCP server		Data port:
	USB RNDIS host and device		USB on-the-go
			RS-232 serial
			Ethernet
GPS - Built In	3.3V active		Standard Charging Port (SDP): Rated for 500mA
	Situational awareness		
	Cursor-on-target compliant		RoIP port:
	1 second updates		Legacy radio tethering
	r second updates		Legacy radio detection
			USB host/RS-232 serial
Security	CTR-AES-256 encryption		Standard Charging Port (SDP): Rated for 500mA
Encryption	HMAC-SHA-256 authentication & integrity		Standard Charging Fort (SDF). Rated for SoomA
Liferyption	Integrated hardware cryptographic acceleration		
			Video-in port:
	Utilises Suite-B algorithms		HD-BNC connection
	Cryptographically authenticated over-the-air rekey and key zero		
	FIPS 140-2 Level 2		With battery:
	Rechargeable 30 day hold up for keys and configuration settings	Size & Weight	
			3.8 x 6.7 x 20cm (1.5 x 2.6 x 7.9 inches)
3 x 3 MIMO	Extended range		876.4 grams (30.9 oz)
	·		
Technology	100 Mbps of throughput		Without battery:
	Maximal ratio combining		3.8 x 6.7 x 11.7cm (1.5 x 2.6 x 4.6 inches)
	Spatial multiplexing		513.6 grams (18.1 oz)
	Antenna detection		
Madulas Dadia	DE madulationer OEDM (44 OAM 44 OAM ODDU DDDU)	Frequency Range	
Modular Radio	RF modulations: OFDM (64-QAM, 16-QAM, QPSK, BPSK)	& Transmit Power	
	Swappable radio modules / radio boards		L-Band: 1350 - 1390 MHz
	Software configurable bandwidths (5 MHz, 10 MHz and 20 MHz)		S-Band †: 2200 - 2507 MHz
	TX/RX operating modes (SISO, 2x2 & 3x3 MIMO)		BAS-Band: 2025 - 2150 MHz
			C-Band (Lower): 4400 - 5000 MHz
Mideo	UD DNO connection		C-Band (Upper): 5100 - 6000 MHz
Video	HD-BNC connection		
	3G-SDI & composite input		6W - 10W Transmit power (3.3W Per RF Chain)
	Integrated HD H.264 video encoding / decoding		
		Bandwidth	Configurable bandwidths (5MHZ, 10MHz and 20MHz TX/RX)
			Operating modes (SISO, 2x2 & 3x3 MIMO)

	Legacy radio tethering Legacy radio detection USB host/RS-232 serial
	Standard Charging Port (SDP): Rated for 500mA Video-in port: HD-BNC connection
Size & Weight	With battery: 3.8 x 6.7 x 20cm (1.5 x 2.6 x 7.9 inches) 876.4 grams (30.9 oz)
	Without battery: 3.8 x 6.7 x 11.7cm (1.5 x 2.6 x 4.6 inches) 513.6 grams (18.1 oz)
Frequency Range & Transmit Power	Interchangeable frequency module (ordered separately): L-Band: 1350 - 1390 MHz S-Band †: 2200 - 2507 MHz BAS-Band: 2025 - 2150 MHz C-Band (Lower): 4400 - 5000 MHz C-Band (Upper): 5100 - 6000 MHz
	6W - 10W Transmit power (3.3W Per RF Chain)
Bandwidth	Configurable bandwidths (5MHZ, 10MHz and 20MHz TX/RX) Operating modes (SISO, 2x2 & 3x3 MIMO)
Battery	Low battery alert Standard twist-lock connector
Device Power	8 - 28 VDC 12 - 14 hours on fully charged battery Battery eliminator compatible provides other power options
Environmental Protection	IP68 rated MIL-STD-810G certified - altitude, temperature, humidity, salt fog, vibration, mechanical shock MIL-STD-461F RE102 Anodised black coating Operating temperature - 40°C to 85°C (- 40°F to 185°F) Low temperature storage to - 51.1°C (- 60°F)
